

Nrup Rawal

GRC Analyst | ISO 27001 Framework Knowledge | Cloud Security (Entra ID)
+91 8169672956 | work@nruprawal.com | [LinkedIn](#) | [GitHub](#)
Location: Ahmedabad/Mumbai (Open to Relocate)

PROFESSIONAL SUMMARY

MBA candidate in Cybersecurity Management specializing in **Governance, Risk, and Compliance (GRC)**. Proven ability to bridge the gap between strategic governance (ISO 27001 & NIST frameworks) and technical controls (Microsoft Entra ID). Experienced in conducting Gap Analyses, quantifying financial risk (ISO 27005), and standardizing IT operations. Currently transforming unstructured IT workflows into auditable, compliance-ready frameworks.

CORE COMPETENCIES

Frameworks & Standards: ISO/IEC 27001:2022 (Annex A Controls), NIST CSF, ITIL v4
Risk Management: Risk Assessment (ISO 27005), Qualitative Risk Analysis (5x5 Matrix), TPRM
Cloud Security: Microsoft Entra ID (Azure AD), Conditional Access Policies, MFA Implementation
Process Engineering: SOP Development, Audit Evidence Management, Workflow Standardization

FEATURED PROJECT

- Project Aegis: ISO 27001:2022 GRC Simulation** | *Audit & Governance* Jan 2026
- Executed a self-directed Audit & Governance simulation for a mock technology firm to apply ISO principles practically.
 - Gap Analysis:** Audited 20 critical controls against ISO 27001:2022 Annex A, identifying 45% non-compliance.
 - Risk Quantification:** Built a dynamic Risk Heat Map (based on ISO 27005 principles) to prioritize financial risks like Credential Theft over administrative gaps.
 - Policy Architecture:** Drafted policies for Human Resource Security (A.6) and Access Control (A.5), aligning operational steps with standard requirements.
 - Full Excel Audit Tool, Policy Documents, and Executive Report available on **GitHub**.

PROFESSIONAL EXPERIENCE

- Synoptek** Ahmedabad
Documentation Specialist (Governance & Process Standardization) Jul 2025 – Present
- Governance Frameworks:** Architecting the central repository of IT Standard Operating Procedures (SOPs), ensuring operations align with ITIL best practices.
 - Audit Readiness:** Managing the "Evidence Lifecycle" (asset lists, logs, diagrams) to ensure client environments are prepared for external compliance audits.
 - Identity Governance:** Documenting User Onboarding protocols (**benchmarked against ISO 27001 Control A.5.16**) to create auditable access trails.
 - Process Improvement:** Analyzing incident workflows to reduce ambiguity, resulting in clearer escalation matrices and faster resolution.
- Synoptek** Ahmedabad
Associate Support Engineer (Cloud & Identity Security) Jul 2024 – Jun 2025
- Identity Management:** Managed Microsoft Entra ID for ~300 clients, enforcing MFA and RBAC policies.
 - Security Operations:** Handled L1 security incidents (Phishing, Compromised Accounts) within Microsoft 365 environments.
 - Compliance Checks:** Performed periodic security validations (BitLocker status, Intune Compliance) to maintain security posture.

EDUCATION

National Forensic Sciences University (NFSU) Gandhinagar, India
MBA in Cybersecurity Management Aug 2025 – Exp. 2027

Ganpat University Mehsana, India
B.Tech in Computer Engineering Graduated 2024

CERTIFICATIONS

ISC2 Certified in Cybersecurity (CC)

Google Cybersecurity Professional Certificate

IBM Cybersecurity Analyst
